

## Vibrant growth and development in KINFRA Parks in Kazhakkootam, Palakkad and Kalamasserry

Vibrant and successful efforts by investors with a resolve to ensure growth and development in their respective areas have brought KINFRA Film & Video Park, Kazhakkootam, Trivandrum, KINFRA Integrated Industrial & Textile Park, Kanjikode, Palakkad and KINFRA HiTech Park, Kalamasserry, Cochin into focused limelight as India's premier industrial infrastructure corporation in the public sector hastens to ensure basic facilities for aspiring entrepreneurs and handhold them on the path to success and accomplishment.

In Kazhakkootam, the visit of Mr. Tim Eddy, Global Vice Chair, Earnest & Young (E&Y) the IT giant, to its state-of-the-art facility in the KINFRA Film & Video Park, held bright possibilities of increased investment and enhanced activity in the company's area of operation. While in Palakkad it is Rime Rich Foods, already an integral part of the KINFRA family with its manufacturing unit in KINFRA Food Park, Kakkanchery, Malappuram district which is scaling new heights, in Cochin KINFRA Hi-Tech Park is witnessing the expansion of ubio, which has informally begun operations of its new Medical Diagnostic Manufacturing facility.

## E&Y Global Vice Chair Tim Eddy meets Industries Minister P.K. Kunhalikutty, discusses expansion plans

**Trivandrum:** Minister-Industries & IT, Sri. P.K. Kunhalikutty received Mr. Tim Eddy, Global Vice Chair, Ernst & Young (E&Y) in his office during the latter's visit to Trivandrum recently. The meeting between the Minister and the Technology leader centered around the possibility of E&Y, the Globally acclaimed IT major expanding its already substantial presence in KINFRA Film & Video Park (KFVP), Kazhakkootam. The meeting brought

into focus E&Y's readiness to make use of the world-class infrastructure facilities provided by KINFRA to go ahead with the project, and, in turn, KINFRA's continued commitment to provide every possible support to the initiative.

In continuation of this high level confabulation and as a prelude to what is in store by way of growth and expansion, Mr. Tim Eddy visited KFVP and held further discussions with Team KINFRA headed by Dr. G.C. Gopala Pillai, MD-KINFRA, Sri. J. Krishna Kumar MD-KFVP, Sri. K. Sudhakaran GM-Projects and other KINFRA officials on the various aspects of the projected expansion. Already E&Y occupies 85000 sq.ft. in the IT/ITES sector of the Animation Zone, and the facility serves as the Global Support Centre of the illustrious brand.

## Rime Rich Foods launches unit in KINFRA Park Kanjikode

Manufacturers of Pappai Ice Cream, Rime Rich opened its new manufacturing unit in KINFRA Integrated Industrial & Textile Park, Kanjikode,

confident of repeating its success saga, already underway in Kakkancherry. Italian Technology mixed with European flavours, the new plant has the capacity to produce 12,00,000 pieces of ice cream a day, intended for home consumption as well as the export market.

"Fully automated and absolutely hygienic every inch of the way, Rime Rich plans to grow into more varieties of flavours and increasing numbers of consumers", said Sri. Starson Kandamkulathy, MD. "In addition to ice cream cups, we also have imported sticking machines to make 14,40,000 stick ice cream per day."

## Operations begin ubio's new facility in KINFRA Hitech Park

ubio Biotechnology Systems is commissioning its new modern manufacturing facility in KINFRA Hitech Park, Kalamasserry. This is one of the biggest investment happened in the medical diagnostics sector in India. From its inception in the year 2008 as an Assay Development company at KINFRA Hitechpark, Incubation center, ubio has grown up into a full-fledged IVD manufacturer contributing largely to the human and animal health sector.

ubio's new manufacturing facility, has the capacity to manufacture 200000 rapid test devices per day. This fully automated facility consists of CLASS 10000 assembly suits, under <10% RH, Automated coating, Lamination and

assembly lines, Fully automated ELISA manufacturing Line, SPCE based Biosensor lines, CLASS 10000 Sterile Buffer filling facility with fully automated vial and bottle filling lines, Biosafety III culture room, cold rooms, fully equipped Quality control laboratory and R&D laboratories for Assay development, Molecular Biology and Bioengineering.
